

PRESENTATION – PROPOSAL FOR COOPERATION

www.politerm.rs

We would like to introduce you, our company **Politerm Ltd from Belgrade Serbia** and to offer a cooperation that would be of mutual benefit.

Our family owned company is among leaders in production and distribution of industrial plastic in the **Balkan** and the EU market. We are doing successfully business over 30 years.

We are offering a wide range of SEMIPRODUCTS rods, plates, tubes, **CATERING PRODUCTS**, butcher blocks with rustless bearer, table for meat treatments, hummers for butchers and home use, plates for pizza, cake and prosciutto stands, cheese molds, boxes for food, work stroller, **INDUSTRY PRODUCTS**, acid-resistant centrifugal pumps, valves, exhaust hoods, drum and tub for galvanisation, centrifugal fans, mechanical elements (gears, worm transport gears, pulleys, sprockets, transport stars, sliding bearing), sliding profiles, rails, guides, battens, euro paletts, reject and perforate and paneling plates, rolling elements, high load wheels, **PRODUCTS ON DEMAND** equipment for industry bottling, gear coupling, plate for leather treatments, presses for deacant lard and fruits, etc...

The materials that we are using are: **polyethylene (PE), polypropylene (PP), polyamide (PA) and polyacetal (POM)**.
In our warehouse we have about 280 tones rods and plates constantly.

With great pleasure we would like to present you our **new production line for PE and PP plates with thickness range (2 - 40)mm** in standard **surface formats of (1.500 x 3.000)mm**. The length dimension can be more than 3.000 mm, depend on your demand. You can get any other plate in accordance with the above dimensions. The **capacity of production is about (7 - 10) tons per day**.

Our new production line give us an **opportunity to offer you the affordable price on the market, without intermediaries**. For the best price, be free to contact us directly and we will make agreement of mutual benefit. **You are welcome!**

The processing of material we are doing in our own machine park with conventional and CNC lathes, milling cutters and routers.

Our company took part in many successful projects and still cooperate with large companies whose references confirm the highest quality of our products.

All our materials are ISO 9001:2015 certified.

Sincerely yours,
Owner and General Manager Milan Mrdjenovic
